*Science focuses on Bioregulation*

ACUPUNCTURE INTERACTS WITH  
NEUROSCIENTISTS  
PHYSICIANS  
RESEARCHERS  
BIOLOGISTS  
PSYCHOLOGISTS

Athens, June 24, 2015

For the 3<sup>rd</sup> year in a row we are very happy to announce that IASY 2015 came to completion, hosted by SAMAG in the city of Athens Greece, on June 20-21, 2015.

We are very proud and joyous to having participated in such an extraordinary scientific event! Bridging knowledge and different fields of science came together in the most proficient way. It seems that scientific think tanks have a great future despite oddities and all obstacles can be surmounted when we all reach for common ground.

Having said that we cordially invite you all to the 4<sup>th</sup> upcoming IASY 2016 symposium on June 04-05, 2016

From the Scientific Committee

Dr. Konstantina Theodoratou MD, MSc, Med.Psych, AABMRC  
Fellowship, President of ICMART, President of SAMAG

Chair of the Symposium
